

1, 2, 3

Math Scavenger Hunt

Grades K-2

Ask an adult to be your helper.

Look for each of the following items and write down where you found them.

You will need: this paper, a pen or pencil, and various household items to investigate. Check off each item you find.

This is where I found it:

- a. Look for these numbers: 1, 2, 3, and write as high as you can go. _____

- b. Find these numbers in this order: 123, 234, 345, 456. _____

- c. Look around and find zeroes: Make a tally mark for every one you see. _____

- d. Find a used envelope with at least six numbers on it. It says: _____

- e. Write down your house/apartment number. Try to memorize it. _____

- f. Find coins with your birth year date on them. _____

- g. Find 3 or more words with the same number of letters as your first name. _____

- h. Look for a house that looks like a rectangle with at least 1 triangle on it. _____

- i. Count the windows on one side of a tall building. I counted _____

- j. Find a repeating pattern of windows, colors, etc. I found _____

- k. Read one book for every year of your age. I read: _____
